

 **MONSTER**®

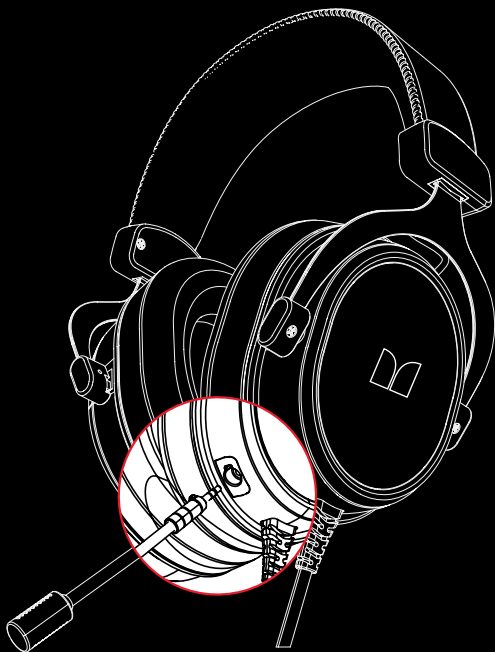

ALPHA
CORDED GAMING HEADSET

Installation:

1. Plug the Headset into PC USB port
2. To customize your settings download the software from the website: monstergamingusa.com. Software available for PC only.

The Virtual 7.1 control, MIC Noise-Canceling Control Switch and Mic Mute will work only after you install and open the software;

To ensure that the mic noise-canceling feature works as intended, place the controller away from the microphone. The microphone ENC function will affect or cancel out your voice if placed too close to the controller.

Insert the microphone boom into the jack on the left earcup of the headset. Make sure the microphone mute is off.

ALPHA CORDED GAMING HEADSET

Headset Controller

Please note: The Alpha headset works best with the Monster software. To ensure the audio and light settings are retained after rebooting your PC, select the "Auto Start" function in the software and make sure it is set to "ON". Software available for PC only.
